We believe in the beauty of simplicity

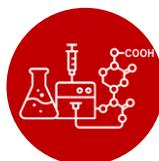

Solid Science is a Hungarian start-up focused on laboratory automation, custom instrument development and manufacturing, and automated solid-phase peptide synthesis, including instrumentation, custom synthesis and foldamer library.

Laboratory automation

Complete and practical solutions fitting to your budget, for modern laboratories. Data and information management system, ELN, Instrument development and manufacturing

Peptide synthesizers

Compact and economical synthesizers, which is accessible for everyone who needs to synthesize peptides.

DrugSol – Foldamer & Peptide Library

Curated & Searchable artificial amino acid based small molecules platform
